

Markware™ industrial signage software

Powerful signage creation software

Markware™, the companion software for use with Brady marking systems, is a powerful and effective tool for industrial signage. It includes over 1,000 symbols, pictograms and templates, thereby lending you support through all the stages of your creation. From your PC you can create messages, symbols, pictograms, informational and instructive signage effectively. Make your workplace safe!

Markware™ handles:

- Monochrome printing up to 5m in length (Powermark™)... on adhesive banner rolls
- Multicolor printing up to 1m in length (Globalmark™) on adhesive banner rolls
- Letter & symbol cut-outs (Globalmark™ color & Cut)
- Printing + cutting on the same label (Globalmark™ color & Cut)
- Printing on die-cut labels (Minimark™)
- Printing on a variety of media ranging in width from 13mm to 250mm, according to the Brady system used

Choosing Markware™ means choosing simplicity and effectiveness

Main Markware™ characteristics	Markware™	client advantages
<ul style="list-style-type: none"> Negative printing/Puzzle printing/Object rotation/Data import (Excel®, Access®, Dbase®, text®, FoxPro®, Lotus®, Paradox® formats)/Import of drawings, pictograms and diagrams in BMP, DIB, TIF, JPG, WMF, PNG, PCX, PCT, RAS and EPS formats). 	Windows-compatible print driver included (Windows 98 SE, 2000, XP, NT4).	No downloads necessary.
	Windows print driver adds the Brady printer to your printer list.	Authorizes printing directly from some other software such as drawing software and others used by clients (the margins must be adjusted considering that Markware™ is designed to work with Brady printers using banner rolls).
	No dongle drivers.	More ease of use.
<ul style="list-style-type: none"> Markware™ also employs all the basic functions of Windows applications for more intuitive use (copy/paste, print preview, justify, superscript, bold, italics, underline, borders, etc...). 	Reinstallation possible.	In case of problems, multiple installations on one PC are possible at no extra cost. There is no loss of license in cases of disk failure, OS modification, updating computer equipment, etc ...
<ul style="list-style-type: none"> Fonts: All True Type fonts installed on a PC. 	Markware™ employs all the basic functions of Windows applications (copy/paste - print preview, etc ...).	Facilitates quick initiation and mastery of the software..
<ul style="list-style-type: none"> 15 Bar code protocols: Codabar, code 128 Auto, code 128 A, code 128 B, code 128 C, code 39, EAN/JAN-13, EAN/JAN-18, Extended code 39, HIBC, Interleaved 2/5, UPCA, UPCE 11 Digit, UPCE-0 6 digit, UPCE-1 6 digit. 	Complies with safety standards.	Complies to current standards in safety signage.
<ul style="list-style-type: none"> 11 languages : English, French, German, Dutch, Spanish, Italian, Danish, Swedish, Norwegian, Finnish. 	Markware™ works in network environments through local installation (Markware™ is not an application for installation on a network server).	Local application does not create interference in the proper function of your network. Please note: where a network is in place, the installation of Markware™ should be done using the local administrator profile of the PC where the software is to be installed (please consult your IT support service).
	Very user-friendly application.	Advanced functions allow quick label creation ("align objects", "group objects", foreground/background, zoom, rotation...).
	Template designer.	Quick and easy creation of personalized label templates.

BRADY, THE GOLD STANDARD IN IDENTIFICATION
